

Open Space
THEATRE COMPANY

PRESENTS

TURNING THE TIDE

A CARBON FANTASY IN ONE ACT by Peppy Barlow

Otley Village Hall

7.30 Wednesday 24 March

A 30-minute entertainment followed by an audience discussion
Families especially welcome, free, no ticket required

Created with sponsorship from the East of England
Development Agency. Tour funded by the Green Suffolk
Fund, the Suffolk Coast and Heaths Sustainability Fund,
The Suffolk Foundation and The Adnams Charity.

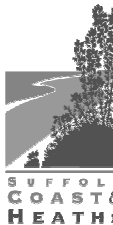

Many people seem to feel “burned out” as a result of doom
and gloom climate change stories in the media. This play is
designed to re-stimulate interest through entertainment.

The play sets out to hold up a mirror to what is happening in
our society without being preachy. It does this in an
entertaining way and we hope people will enjoy themselves
as well as being re-energised.

Open Space Theatre Company was formed in the autumn of 2008
to present classical and contemporary drama as well as issue-
based plays. For further information about Open Space Theatre
Company log onto openspacetheatre.org.uk or telephone 01379 855101.
